### **IndustriOS Software, Inc. introduces INDUSTRIOS Version 3.0 to the Sage Accpac market.**

IndustriOS Now Offers Sage Accpac Manufacturing Customers Access to Advanced Manufacturing Capabilities with INDUSTRIOS v3.0.

Oakville, Ontario May 12, 2008 — IndustriOS Software Inc. a leading provider of manufacturing and distribution applications for Sage PFW, today announced the introduction of INDUSTRIOS to the Sage Accpac marketplace.

This product offering provides an affordable, easy to implement manufacturing, distribution and operations solution to the entire range of the small to medium enterprises (SME) within the Accpac market. The new product offering links seamlessly with the award winning Sage Accpac financial software and is supported by a growing network of value added resellers and distributors.

The introduction of INDUSTRIOS Version 3.0 to the Sage Accpac market creates new, affordable options for Sage Accpac users needing tight integration to inventory, advance manufacturing capabilities, robust sales management, customer service, quoting, estimating, and product configuration, and advanced MRP capabilities. For discrete manufacturers in make-to-order, make-to-stock, assemble-to-order, configure-to-order and mixed mode environments, INDUSTRIOS' advanced capabilities allow customers to improve their inventory position and costing, enjoy improved gross margins, plan efficiently to reduce costs and improve material availability, schedule effectively to reduce costs and improve on-time job completion, quote quickly and accurately to win more quotes, and improve decision making. The operational focus within INDUSTRIOS provides great control over the key operational asset – Inventory, making it a “must have” solution for Sage Accpac manufacturing customers.

About IndustriOS Software, Inc.

IndustriOS Software Inc. has a 12-year history of providing companies with solutions to manage their operations, improve customer service, and streamline and simplify daily activities in their organizations. The mission at IndustriOS continues to focus on the unique requirements of small to mid-sized companies and provide solutions that enable customers to grow and prosper through better informed business decisions.
