

Communications Solutions For Accounting Systems

The easiest way to Fax and Email

- Direct Marketing
- Invoices
- Statements
- Quotes
- Order Confirmations
- Purchase Orders, and more..

Make Money

Boost Sales by sending Direct Marketing to your customers. Will sending newsletters, flyers, promotions, new product announcements, clearance items, specials, price lists, product information or trade show notices make you more money? It's easier than you think!

Shorten your A/R cycle by collecting receivables faster using instant communication and put more cash in the bank. Customers report a reduction of DSO by 5-10 days.

Get quotes out quickly and professionally with attached collateral and win more business.

Look big, act smart. Customers want to do business with successful companies. Using a Fortune 500 technology like DocuFire can only help you succeed.

"We are a distributor and have been using DocuFire for nearly a year and it is everything as promised. The cost savings of DocuFire paid for our entire accounting software investment!". Uni-fit Fastening Systems Inc.
(Customer since 2004)

Save Money

Eliminate costly mailing expenses. Cut postage, labor and consumables by faxing and emailing all your business correspondence.

Eliminate paper and physical storage costs with digital document archiving.

Eliminate the nuisance of maintaining multiple address books by using your accounting database for all business correspondence.

Centralized sent items for all users means you don't need to run around the office wondering who sent something.

Reduce IT expenses by centralizing technology to your server instead of having to setup software on every workstation.

DocuFire links to your Sage Accounting system right out of the box and it's easy to use!

With document routing, distribution lists and dozens of powerful features, DocuFire gives you everything you need in one solution.

Communications Solutions For Accounting Systems

DocuFire is Easy!

Easy to install! DocuFire installs in just a few minutes and links to your accounting software with plug-and-play simplicity!

Easy to use! DocuFire installs as a simple virtual printer just like a PDF writer. If you can send an email message, you can use DocuFire.

Live DocuFire helpdesk solves your support issues and keeps your DocuFire system up and running trouble-free.

Uses your existing accounting forms exactly as they are with no changes required.

Just print to DocuFire printer and all the magic happens. The hallmark of a great technology is one that just fits into your existing infrastructure without disrupting your operations.

Serve your customers better and get more done

Improve audit control, compliance and security

Eliminate waste and benefit the environment!

Plug and play accounting integration

Simply Accounting by Sage

“We are extremely pleased with our DocuFire software. The link it provides from our customer data to various communications modalities has drastically improved efficiency and significantly reduced costs. We use it for sending out monthly account statements, account past due notices, monthly sales flyers, purchase orders and copies of invoices. The software is straight forward, easy to learn and easy to use.”

WAT Supplies (Customer since 2003)

“The moment that we found DocuFire and saw it’s features it was the only way to go. In no time, DocuFire was up and running on our Microsoft Windows 2003 Server and on all our workstations. For the features that DocuFire has, it was installed so fast it was hard to believe. With minimal instruction time we were faxing and emailing to our customers.”

Guelph Paper Company (Customer since 2007)
